

International Aerosol Research Assembly

# 2020 Recipient of the International Aerosol Fellow Award

Recognizes outstanding contributions to aerosol science and technology through research, technical development, education, and service

***Stephen E. Schwartz***  
***Senior Scientist Emeritus***  
***Brookhaven National Laboratory***

- Author of numerous high profile, highly cited papers on atmospheric aerosols, cloud chemistry, and their impact on Earth's radiation budget and climate.
- Played a lead role in establishing the U.S. Department of Energy's Atmospheric Radiation Measurement (ARM) program. Led numerous national and international measurement campaigns.
- Fellow of the American Geophysical Union (AGU) and the American Association for the Advancement of Science (AAAS). Key contributor to many national and international committees on aerosols and climate.
